

Inpatient Rehabilitation Unit

October 2015 – September 2016 Outcomes

Our Annual Report

The Rehabilitation Unit at Jackson North is proud to share our outcome statistics for FY 2016. We hope you will take a moment to review this information and share it with others.

Customer Satisfaction

The satisfaction of our patients and their families, physicians, and insurers is very important to us. This year, we have achieved excellent results from various surveys and sources.

What's New?

We have Certified Rehabilitation Registered Nursing and Certified Stroke Therapists on our team, bringing to our unit to an even higher level of quality care and expertise.

Average Length of Stay: 10.4 days

National Average: 13.2 days

This describes the average number of days an individual patient spent in our inpatient rehabilitation unit.

Performance:

- Our patients are **98% satisfied** with their progress and the goals they achieved during their stay.
- **Goals met: 66%** - This describes the functional goals met at 100%. **1773** goals out of **2700** set were fully achieved at time of discharge.
- **3 Hour Rule: 94%** - This describes how often patients receive a minimum of 3 hours of therapy per day, 6 days per week.

Overall Patient Satisfaction: 98%

This describes the percentage of patients rating their services as excellent.

Discharged to Community: 73% **National Average: 75%**

This describes the number of patients that return to live in the community after discharge from our program. 17.70% returned to an acute setting & 8.9% required longer term placement.
