

CODE NO 539
COMMUNICATION WITH MEDICAL STAFF

The GMEC maintains communication between leadership of the medical staff regarding the safety and quality of patient care as follows;

The GMEC chairman is a member of the medical staff executive committee and reports about the GMEC activities on a monthly basis.

Also, communication is maintained by submitting an annual report to the medical staff and the PHT Board of Trustees. Such report includes new or closed programs, changes in program directors, implementation of new policies or revisions that have been adopted, results of accreditation site visits, results of accreditation reports received from ACGME, internal review reports, duty hours, resident supervision, education and general competencies, a description of the residents participation in patient safety activities and quality of care education during the academic year, supervision, faculty development and assessment and evaluations.
